

Fleet Tracking and More!

If You Manage a Fleet, Fleet Director is the Software Platform of Choice. Tracking over 200,000 vehicles, our solutions work across all major industries including trucking, HVAC, construction, energy & mining, lawn & garden, transportation and service. Our customers represent a cross section of some of the most efficiently run fleets operating today!

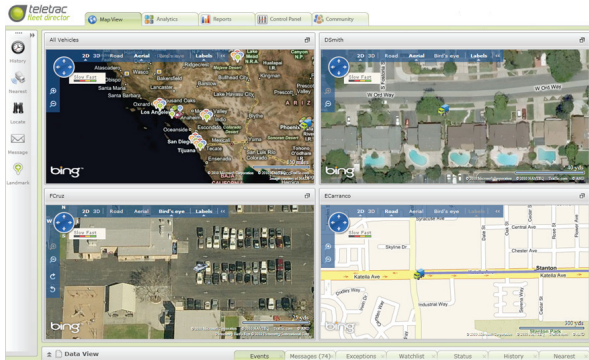

More than 20,000 of the best fleets choose Teletrac[®]:

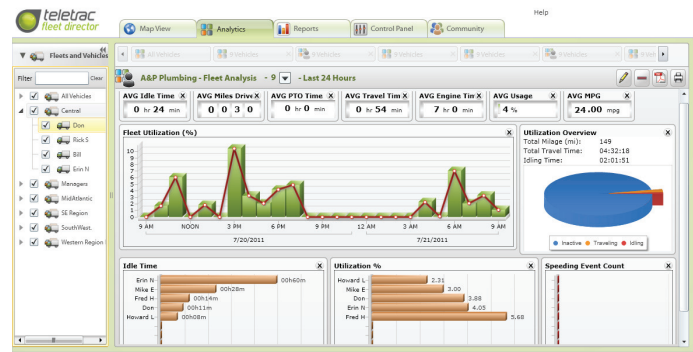

Fleet Director®

Get GPS Tracking and Advanced Mapping for Greater Productivity

An award-winning, browser-based solution, Fleet Director works intuitively from the start. Dispatchers and drivers gain unique freedom to view real-time maps, driver information and operational status – all integrated in easy-to-use interactive screens, which can be customized on the fly. Additionally, Fleet Director Connect lets you seamlessly integrate with existing third party applications such as McLeod Software, TMW Systems, Roadnet Technologies, Jonel, SpeedGauge and many others.

Fleet tracking can be visualized in multiple views simultaneously.

Operational screens are intuitive and easy to use.

New! Fleet Director Tablet

Get The Latest in Highly-Functional In-Cab Displays

Available in 5" and 7" versions, the vibrantly colored Fleet Director Tablet provides the driver turn-by-turn navigation, two-way messaging, driver alerts and fully-functional Hours of Service (HOS) record-keeping and compliance.

Fleet Director Tablet is vibrant and easy to use.

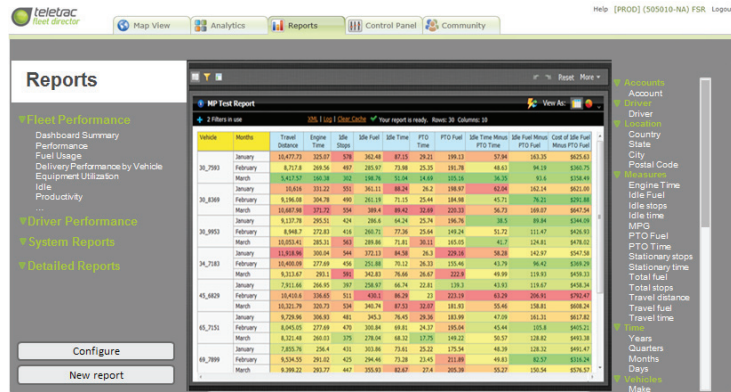

On-board navigation delivers routes faster.

New! Business Intelligence Platform

Get Custom Reporting, Charting and Business Intelligence

Time is money. Simply “drag and drop” the data that you want in your report from a list of metrics, and generate a custom report in a flash. Easily generate multiple chart types against your data and include multiple accounts linked together, viewing your entire organization on one screen.

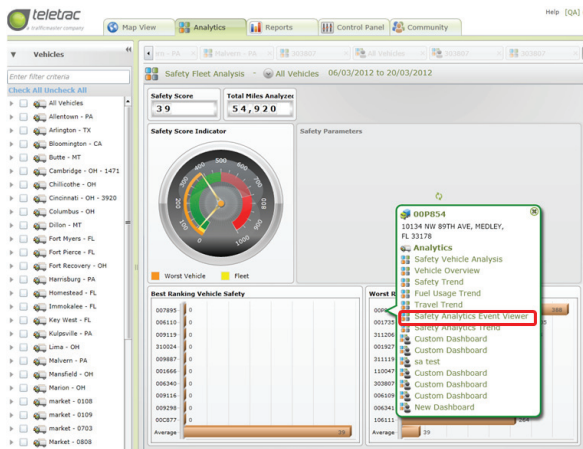

Drag-and-drop functionality allows for the easy creation of powerful reports and charting.

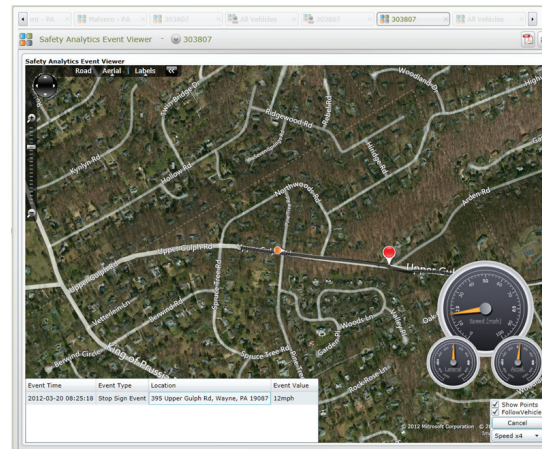

New! Safety Analytics

Get Driver Safety Dashboards and Event Replay of Unsafe Driving Events

Safety Analytics monitors safety-related activity and presents it in a dashboard showing best and worst drivers in the fleet. Dangerous behaviors can be visualized in map view and individual incidents can be “played back” just as they happened in real time.

Safety analytics dashboards show safety performance and worst drivers.

Play back actual incidents as they happened for driver training.

New! Hours of Service is Even Easier with Fleet Director Tablet

Get Hours of Service and eLogs

Eliminating time-consuming and error-prone manual logbook entries, Fleet Director 9 now makes Hours of Service (HOS) compliance even easier with the Fleet Director Tablet – streamlining the process of entering, recording, completing and storing all required information for drivers’ logbooks – right from the cab, together with navigational features – meeting federal guidelines for tracking and providing HOS and eLogs information.

HOS reporting has never been easier.

What Our Customers are Saying: Get Results Like These with Teletrac®

"Teletrac® has been our telematics partner for more than 7 years and was selected based on the Fleet Director solution set, services and product roadmaps. With Teletrac® telematics, assets are protected 24/7/365 and you get all the data necessary to effectively manage your fleet."

— **Ryder System, Inc.**

"We've been hauling mail exclusively for the U.S. Postal Service for more than 25 years. A USPS mandate required GPS on all carrier trucks within 60 days to get compliant. We had GPS on our trucks before with little success. We selected Tele-trac® because they were endorsed by the Postal Service and had been in business a long time. Their commitment, service and support is unbelievable. Teletrac® saved our business by getting us compliant quickly!"

— **Bancroft and Sons
Transportation**

"Our core business is train derailments. And, we must provide a one-hour response time. With over 200 pieces of highly specialized vehicles in our fleet, we have no backups. Fleet Director vehicle diagnostics gives us the data, analysis and alerts to proactively maintain our fleet, virtually eliminating breakdowns in the field."

— **Cranemasters**

"With high liability trucks, it is imperative for us to keep close tabs on them at all times. Teletrac's GPS allows us to track each vehicle, from the time it leaves our facility to pick up to drop off. This has helped us obtain several new contracts."

— **Trinity Armored Security**

"With Fleet Director's routing capabilities, our trucks now arrive on time, improving our customer relationships. Plus, the reporting capabilities provide an excellent source of documentation and record keeping."

— **Friesenhahn Plumbing**

"In the past, we had a huge problem with theft. With Teletrac's alerts and ignition on/off monitoring, we no longer have to worry. We can quickly locate a stolen truck, shut it down, and retrieve it."

— **Brothers Produce**
